

Course title : Digital Pedagogy: Innovative Teaching Methods

Course Description : This 8-week course is designed for educators and teachers interested in integrating digital teaching methods into their classrooms. Participants will explore various digital tools and pedagogical strategies that enhance learning experiences and engage students effectively. Through interactive lessons, discussions, and practical applications, educators will develop the skills necessary to create a dynamic digital learning environment. The course will also address challenges and best practices in digital pedagogy, ensuring that participants are well-equipped to implement these strategies in their teaching.

Course Objectives :

- Understand the principles of digital pedagogy and its importance in modern education.
- Explore various digital tools and platforms for enhancing classroom engagement.
- Develop strategies for creating inclusive and accessible digital learning environments.
- Analyze case studies of successful digital pedagogy implementations.
- Create a digital lesson plan incorporating learned strategies and tools.

Course Tags : digital pedagogy, online teaching, educational technology, instructional design, teacher training
